SIROJIDDINOV IBROHIM

Backend Software Engineer (Node.js)

Location: Tashkent, Uzbekistan
Phone: +998 (99) 920-65-25
Email: sironiddinooov@gmail.com
Telegram: @bkm100 | **LinkedIn:** linkedin.com/in/ibkm-dev

DESIRED POSITION

Position: Node.js Backend Developer
Preferred Work Format: On-site / Hybrid / Remote

PROFESSIONAL SUMMARY

Backend-focused Node.js Developer with over 1 year of hands-on experience building and maintaining server-side applications, RESTful APIs, and database-driven systems. Able to work independently, research solutions, and deliver assigned backend tasks using Node.js, Express.js, PostgreSQL, and Redis. Experienced in improving existing backend workflows and application performance, contributing to efficiency gains of approximately 15%.

Familiar with designing scalable and maintainable backend architectures, API security, authentication, database modeling, and structured application layers. Also experienced in using Swagger/OpenAPI for API documentation and applying spec-driven design methodologies to document system requirements and development workflows. Continuously expanding practical knowledge of AI agents and agentic AI technologies, including their use in software development, automation, documentation, and modern engineering workflows.

SKILLS

Node.js, Express.js, Fastify, Javascript ES6, REST APIs, PostgreSQL, Sequelize ORM, Redis, System Design, Database Modeling, SQL, Nginx, Linux

WORK EXPERIENCE

TELECOM SOFT - Tashkent, Uzbekistan

July 2025 - Present

Backend Developer

- Developed and maintained RESTful APIs with Node.js and Express.js, including relational database modeling and relationships for business-oriented backend systems.
- Implemented RBAC and mechanisms to strengthen API security, access control, data protection, and application reliability.
- Gained hands-on experience with monolithic and microservice architectures, with a strong focus on developing and maintaining independently structured backend modules and services.
- Designed and built an internal project and task management web application for team collaboration, providing a lightweight alternative to platforms such as Notion.
- Worked with ISP-specific business and commercial processes, translating operational requirements into practical backend functionality and system workflows.

SELECTED PROJECTS

Task Management Application

Node.js | Express.js | PostgreSQL | Sequelize ORM |Vanilla JS | HTML | CSS

Developed a full-stack task management application with user authentication and personal task CRUD operations, gaining practical experience in REST API development, relational database modeling, and frontend-backend integration.

M-System — Project & Task Management Platform

Node.js | Express.js | PostgreSQL | Sequelize ORM | RBAC | Redis | React.Js | Nginx | AI-Agentic

Designed and developed an internal project, task, and daily reporting platform for team collaboration, featuring RBAC-based access control and structured workflow management. Integrated AI-agentic capabilities and deployed the application to production, contributing to an estimated 20% improvement in team workflow efficiency.

OTP-Based Two-Step Verification (2FA)

Node.js | Fasity | Redis | External SMS Provider | Authentication | Security

Implemented a secure OTP-based two-factor authentication flow with Redis-backed temporary authentication states, OTP expiration, retry/resend limits, rate limiting, device validation, and controlled session creation after successful verification.

B2B Ticket & Appeals Module

Fastify | Fastify | JWT | RBAC | OpenAPI/Swagger | Pino

Developed a modular backend system for B2B complaints, appeals, support tickets, and messaging workflows, including status history, attachments, organization-based authorization, and audit logging. Designed relational data models and secured documented REST APIs using JWT, RBAC, request validation, and OpenAPI/Swagger.

EDUCATION

2017 - 2021 ***INHA University in Tashkent***
Bachelor's Degree in School of Computer and Information Engineering (SOCIE)

LANGUAGES

- **Uzbek:** Native
- **English:** B2 - Upper-Intermediate
- **Russian:** A2 - Elementary
